

ISCM/iCAS Catastrophe Risk Management Credentials Informational Webinar

February 6, 2019

Questions and Answers

Is an experienced practitioner pathway for the CSCR designation going to be offered? If so, when should we expect that?One is being planned but we do not yet have an anticipated date.If I've earned other Institutes designations such as ARe or CPCU, is there any credit given towards some of the earlier exams?We are in the process of determining what combinations of existing credentials would qualify for a waiver for Exam 1. For example, we know that any of the CPCU, CAS Online 1 and 2, and iCAS PC1 course, together with the ARe designation, cover all the material. We are determining how to provide the material not covered by the CPCU, CAS online 1 and 2, and covered by the CPCU, CAS online 1 and 2, and professionals be given any exemptions for any of the exams?PC1 without requiring candidates to take the entire Exam 1 course and exam. As soon as we have formalized both existing known equivalencies as well as the process for alternate proposals, we will post that information on our website, catriskcredenials.org.		
 such as ARe or CPCU, is there any credit given towards some of the earlier exams? 	the CSCR designation going to be offered?	
	such as ARe or CPCU, is there any credit given towards some of the earlier exams?	combinations of existing credentials would qualify for a waiver for Exam 1. For example, we know that any of the CPCU, CAS Online 1 and 2, and iCAS PC1 course, together with the ARe designation, cover all the material.
